

Title	Firefly	03/29/2022
	by Andre Davcev in XRPL Developer Grants Wave 3	id. 23847469
	andre.davcev@theorynetwork.com	

Original Submission	03/29/2022
----------------------------	------------

	Please select a team member to be the Point of Contact for your project. Communications around the program will be sent to the team's Point of Contact.
Point of Contact	Andre Davcev
Pronouns	n/a
Point of Contact Email	andre.davcev@theorynetwork.com
Please share the CV or resume for your team lead (i.e. LinkedIn profile or a Google Doc). Submit a URL starting with https://	https://www.linkedin.com/in/andre-davcev-566912b/
Are you a United States citizen or permanent resident (Green Card holder)?	Yes
Country of Citizenship	United States of America (USA)
Residing Country	United States of America (USA)
City	Rochester
State or Region	NY

Are you (or any member of your team) currently employed by Ripple, Coil, the Interledger Foundation, or the XRP Ledger Foundation as a part-time or full-time Employee or Contractor?

No

During the duration of the proposed project will you (or any member of your team) be employed by Ripple, Coil, the Interledger Foundation, or the XRP Ledger Foundation as a part-time or full-time Employee or Contractor?

No

Project Information

Let's talk about your project!

Before submitting this application, please spend at least 8 hours (e.g. one Saturday) building a proof of concept or prototype of your project. Open source it and publish it publicly on GitHub. If it is an existing project, such that you already have a previously-built beta or release, you can use that! Just make sure it is open sourced on GitHub first. The prototype does not need to be fully functional. For some projects, technical specifications and preview documentation may be sufficient.

What is the working title of your project?

Firefly

Tagline of Project

Life comes to you.

Please summarize your project in 100 words or less. Give us your best elevator pitch

Firefly's mission is to bring the digital world back to their local communities through a fun and lightweight eventing app. While socializing with your friends, family or co-workers, you should be able to pay for tips, receive coupons from local businesses as NFTs, and swap tokens through the integrated and secure Firefly Wallet. By building an open source Wallet SDK and integrating with our existing Firefly mobile eventing app, we bring immediate use cases to the XRPL and help support the developer community.

One Sentence Summary

Theory Network LLC is building an open source Wallet SDK on the XRPL to be used in the Firefly mobile app.

Please share the public GitHub link for your project, starting with https://	https://github.com/theorynetwork/wallet-sdk
Additional project URLs, starting with https://	Our Firefly Mobile App Beta Test (Android): https://play.google.com/store/apps/details?id=com.theorynetwork.Firefly&ah=S2sRRXgF7z7menoALrsClfI0RgA
Why did you decide to start this project?	Our original vision for the Firefly eventing app was to support the ability of end users to add coupons from local vendors. With the advent of the XRPL and other digital ecosystems, we realized that the original vision for coupons could be fulfilled via rewards tokens and NFT's. We believe that the XRPL is the most advanced network for fast and secure token swaps in the blockchain community. We also hope to bring NFT's to our app once they are approved to the Mainnet. While building our original idea for a Wallet UI Library, we found gaps in bridges to other Hybrid Web App architectures such as Capacitor and Cordova. This roadblock inspired us to change our focus from UI component libraries to creating a Capacitor NodeJS plugin. Additionally we want to leverage this new plugin to be used in component libraries such as Ionic. We feel that expanding the XRPL.js library beyond React Native, but also into Ionic, Angular, React, Vue.js and other modern front end frameworks would greatly expand the reach of developers in the XRPL community.
Who will benefit from this project?	We are supporting the XRPL ecosystem with real world payments and transactions, as well as providing other entrepreneurs with the ability to easily build their own web3 based wallets. The Firefly mobile app will also help support local businesses all over the world with its eventing and reward tokens. But most importantly, our mission is to get people back to connecting with their local communities.
Has your product or service launched?	Yes
Do you have external users?	No
If you have external users, how many external users do you have?	We recently launched our v1.0 product on the Google Play Store as a Beta test, but we currently don't have any external users.
Will your project be open source, and released under open source licenses?	Some open source

Please elaborate on which parts of your project will be open source or why you are not planning to open source?	We are open sourcing our Wallet SDK, but keeping the Firefly mobile app source code private.
Which category does your project fall under?	Social impact
Why do you want to build this project on the XRPL?	With the United Nations sustainable development goals on the horizon, the XRPL seems to be the most viable candidate for the internet of value. The most obvious reason for our business needs are the speed and low cost of transactions. With the built-in DEX we will be able to easily perform token swaps, and as we get more advanced, start sourcing liquidity from Ripple. We also have the confidence, due to relationships with central banks around the world, that it will stay inside a legal framework that won't put our company at risk.
Does your team have experience working with the XRP Ledger? If yes, please elaborate.	We use the XRPL to send and receive payments, but don't currently have any prior experience developing features besides our new Wallet SDK project.
Project Team	
How does your team identify?	Private Company
How many developers are involved in your project?	2
If there are no developers on your team, what is your plan to complete the proposed project?	n/a
Team Members	
Wave 3 application - team members (1).xlsx	
Is anyone on your team a member of a different project in this Wave of XRPL Grants?	No

Did you or any member of your team apply for funding in any previous waves?	No
Did you receive, or work on a team that received, previous funding from XRPL Grants?	No
Funding and Timeline	
How much funding are you requesting?	\$100,000 USD
Upload Budget	
Theory_Network_LLC_Budget_Proposal.pdf	
Please estimate how long it will take to complete the primary milestones for this proposal.	7-9 months
How long have you been working on your project, so far?	More than 1 year
What are the specific milestones that you aim to achieve with this funding? (Use Template Below)	
Wallet_SDK_Milestones.xlsx	
Has your team applied, or will your team apply, for any other funding for this project? If yes, where?	No
Additional Documents You may upload up to three relevant documents or videos that help further elaborate on your proposed project or experience. Videos should be uploaded to YouTube and can be up to 2 minutes long. Provide a URL starting with https:// Examples may include: Project demos; Presentation slide decks; XRPL specific coding examples	
Upload documents	n/a
Upload documents	n/a
Upload documents	n/a

Share video URLs	A prototype demo video for our Firefly eventing app. We will be integrating our open source Wallet SDK into our app: https://www.youtube.com/watch?v=waRJzdoUkHg
If you receive funding, XRPL Grants will publicly share information about your project and team. Do you foresee any issues or complications with this?	No
How did you find out about XRPL Grants?	Email newsletter
Are you affiliated with a University?	No
Are you affiliated with UBRI or the XRP Ledger Campus Ambassadors Program?	No
Additional Demographic Information	This section is optional. Demographic information is confidential and will only be used for data collection among the XRPL Grants team and will not have any effect on your application status, review, or potential selection.
Race/Ethnicity	n/a
Gender Identity	n/a
Age	n/a
Military/Veteran Status	n/a

By submitting this form, you are agreeing that XRPL Grants can contact you via email about upcoming events, opportunities, and programs related but not exclusive to XRPL Grants. The information that you provided here will be treated according to the GDPR. You may unsubscribe at any time.
